INDEX

A

Acrosome, 459
Activation, in *Fundulus,* 406
Aggression, catch tentacle developed for, 506
Aging in modular organisms: Ecology of zooid senescence in *Steginoporella* sp. (Bryozoa; Cheilostomata), 267
Amino acids, uptake and metabolism by bivalve larvae, 236
A morphological examination of sperm-egg interaction in the freshwater prawn *Macrobrachium rosenbergii,* 446
Amphipholis, see brittle-star
Anatomy of the tunicate tadpole, *Ciona intestinalis,* 1
ANDERSON, ROBERT S., see Benjamin M. Chain, 28, 41
Anoplopoma, see sablefish
Anthocidaris, see sea urchin
Anthozoa, 506
Antibacterial activity of the coelomic fluid from the polychaete, *Glycera dibranchiata.* II. Partial purification and biochemical characterization of the active factor, 41
Antibacterial activity of the coelomic fluid of the polychaete, *Glycera dibranchiata.* I. The kinetics of the bactericidal reaction, 28
Antibacterial factor, polychaete, 28, 41
Antifungal bacteria, 214
Apis mellifera, see honeybee
Artificial diets of oyster larvae, 227
Ascidiacea, reproduction of *Perophora,* 251
Ascidian hemagglutinins, 124
Attachment of *Palaemon* eggs, 189
Autoradiography, 327
Axenic oyster larvae, 227

B

Bactericidal protein, characterization, 41
  kinetics, 28
Balanus, 493
Barnacles, 536
BARNUM, SUSAN RUTTENBERG, see George G. Brown, 163
Bioassays, 493
Biochemistry of the sablefish, 315
Biomphalaria glabrata, 418
Bivalve larvae, 236
Blue crab, see *Callinectes*
Bombus, 355
BOSSERT, PATRICIA, AND L. B. SLOBODKIN, The effect of fast, and regeneration in light vs dark, on regulation in the hydra-algal symbiosis, 396
Brittle-star, 327
Bryozoa, 267
BROWN, BETSY, see Dan Rittschof, 493, and Leslie G. Williams, 536
BROWN, GEORGE G., AND SUSAN RUTTENBERG BARNUM, Postfertilization changes in the horseshoe crab *Limulus polyphemus* L., 163
BURKE, ROBERT D. Neural control of metamorphosis in *Dendraster excentricus,* 176
BUSH, CATHERINE P., AND JUDITH S. WEIS, Effects of salinity on fertilization success in two populations of *Fundulus heteroclitus,* 406

C

Callinectes, hemocyanin-oxygen binding, 104
CANICATTÌ, CALOGERO, see Nicolò Parrinello, 124
Carbohydrate binding specificities of anti-erythrocytes hemagglutinins, 124
CARRIKER, MELBOURNE R., see Dan Rittschof, 493, and Leslie G. Williams, 536
Catasetum, 355
CASE, JAMES F., see Richard K. Zimmer-Faust, 341
Catch tentacle development, 506
Centrifugal force, application of, 483
Chaetognatha, 82
CHAIN, BENJAMIN M., AND ROBERT S. ANDERSON, Antibacterial activity of the coelomic fluid from the polychaete, *Glycera dibranchiata.* II. Partial purification and biochemical characterization of the active factor, 41
CHAIN, BENJAMIN M., AND ROBERT S. ANDERSON, Antibacterial activity of the coelomic fluid of the polychaete, *Glycera dibranchiata.* I. The kinetics of the bactericidal reaction, 28
Cheilostomata, 267
Chemical attraction of newly hatched oyster drills, 493
Chemical systematics of colonial marine animals: an estimated phylogeny of the order Gorgonacea based on terpenoid characters, The, 71
Chemotaxis of oyster drills *Urosalpinx cinerea* to competing prey odors, 536
Chemotaxonomy, 71
CHENG, THOMAS C., KEITH H. HOWLAND, AND JOHN T. SULLIVAN, Enhanced reduction of T4D and T7 coliphage titers from *Biomphalaria glabrata* (Mollusca) hemolymph induced by previous homologous challenge, 418
Chordates, 1
Ciliary locomotion in larval echinoderms, 433
Ciona intestinalis, 1
Circadian, 471
Cladistic analysis, 71
CLARK, WALLIS H. JR., see William S. Fisher, 189, and John W. Lynn, 446, 459

Cleavage, 163
Clonal life history strategies, 267
Cnidaria, 506
Coelenterates, chemotaxonomy of, 71
Co-evolution, 355
COHEN, MARION F., see William D. Cohen, 50
COHEN, WILLIAM D., IRIS NEMHAUSER, AND MARION F. COHEN, Marginal bands of lobster blood cells: disappearance associated with changes in cell morphology, 50
Coliphages, clearance from molluscs, 418
T4D and T7, 418
COLLIER, J. R., The molecular weight of ribosomal ribonucleic acids among the protostomia, 428
Colonial marine animals, chemotaxonomy of, 71
Crassostrea gigas, 227, 493
Crustaceans, activation of hemocytes, 299
fertilization, 446
fine structure of sperm, 459

D

Decapod, 446, pathology, 201, 214
Reproduction, 189
Dendraster excentricus, 176
Development of a sea anemone tentacle specialized for aggression: morphogenesis and regression of the catch tentacle of *Haliplanella luciae* (Cnidaria, Anthozoa), The, 506
Digenea, 143
Discriminant analysis, 279
Diurnal changes in the accuracy of the honeybee foraging rhythm, 471
Drag on echinoderm larvae, 433

E

Early development in *Limulus,* 163
Echinodermata, 433
Echinoderm larvae, 433
ECKBERG, W. R., AND M. E. PEROTTI, Inhibition of gamete membrane fusion in the sea urchin by quercetin, 62
Effect of fast, and regeneration in light vs dark, on regulation in the hydra-algal symbiosis, The, 396
Effects of salinity on fertilization success in two populations of *Fundulus heteroclitus,* 406
Effects of temperature and salinity on larval growth of the horseshoe crab *Limulus polyphemus,* The, 93
Egg, attachment, 189
in *Fundulus,* 406
in *Macrobrachium,* 446
investment coats, 189
Eggs of *Palaemon macrodactylus:* II. Association with aquatic bacteria, 201
Eggs of *Palaemon macrodactylus:* I. Attachment to the pleopods and formation of the outer investment coat, 189
Eggs of *Palaemon macrodactylus:* III. Infection by the fungus, *Lagenidium callinectes,* 214
Electrophoretic force, application of, 483
EMLET, RICHARD B., Locomotion, drag, and the rigid skeleton of larval echinoderms, 433
Enhanced reduction of T4D and T7 coliphage titers from *Biomphalaria glabrata* (Mollusca) hemolymph induced by previous homologous challenge, 418
Enzymic activity in sablefish, 315
Epibiotic bacteria, 201
Eufriesea, 355
Euglossa, 355
Euglossine bees, 355
Eulaema, 355
Evolution of *Ciona,* 1
Evolution of shell variation in *Purpura,* 518
Eye structure in *Sagitta,* 82

F

Feeding, Bryozoa, 267
Feeding ecology of *Hydra* and possible implications in the structuring of pond zooplankton communities, The, 136
Fertilization, in sea urchin, 62
in *Macrobrachium,* 446
success in *Fundulus,* 406
Fibers of fertilized sea urchin eggs, 483
Fine structure of the mature sperm of the freshwater prawn, *Macrobrachium rosenbergii,* The, 459
FISHER, WILLIAM S., AND WALLIS H. CLARK, JR. Eggs of *Palaemon macrodactylus:* I. Attachment to the pleopods and formation of the outer investment coat, 189
FISHER, WILLIAM S. Eggs of *Palaemon macrodactylus:* II. Association with aquatic bacteria, 201
FISHER, WILLIAM S. Eggs of *Palaemon macrodactylus:* III. Infection by the fungus, *Lagenidium callinectes,* 214
Floral fragrances, 355
Foraging, in lobster, 341
rhythm of honeybee, 471
Freshwater prawn, see *Macrobrachium*
Fundulus, fertilization success, 406

G

Gas chromatography, 355
GERHART, DONALD J., The chemical systematics of colonial marine animals: an estimated phylogeny of the order Gorgonacea based on terpenoid characters, 71
Glycera dibrachiata, immunology, 28, 41
β-1,3 glucan activation of crustacean hemocytes *in vitro* and *in vivo,* 299
GODETTE, GERALD, see Richard P. Mason, 104
Gorgonians, 71

GOTO, TAICHIRO, AND MASAO YOSHIDA, The role of the eye and CNS components in phototaxis of the arrow worm, *Sagitta crassa* Tokioka, 82
Growth and shell variation in the tropical eastern Pacific intertidal gastropod genus *Purpura*: ecological and evolutionary implications, 518
Growth and variation in *Purpura*, 518
Growth of *Limulus*, 93
Growth studies with bacteria-free oyster (*Crassostrea gigas*) larvae fed on semi-defined artificial diets, 227
Gulf of Carpentaria, Australia, 279

H

Haliplanella luciae, catch tentacle development, 506
HANN, BRENDA J., see Steven S. Schwartz, 136
HEBERT, PAUL D. N., see Steven S. Schwartz, 136
Hemicentrotus, see sea urchin
Hemocyanin, 104
Hemocytes, crustacean, 299
Homarus, see lobster
Honeybee, foraging rhythm, 471
Host defense, 299
HOWLAND, KEITH H., see Thomas C. Cheng, 418
Hydra, 136
Hydra-algal symbiosis regulation, 396
Hydromechanics of larval echinoderms, 433

I

Influence of inorganic ions and acclimation salinity on hemocyanin-oxygen binding in the blue crab *Callinectes sapidus*, The, 104
Inhibition of gamete membrane fusion in the sea urchin by quercetin, 62
Innate behavior, 493
Invertebrate blood cells, 50
Invertebrates, 428
Isolation of ascidian hemagglutinins, 124
IWATA, FUMIO, see Masakane Yamashita, 327
